

Did You Know?

1 in 3 women will be treated for a pelvic health condition by age 60¹

Almost \$16.4 Billion annually is spent on 4 female pelvic health conditions²⁻⁵

- Uterine Fibroids
- Pelvic Organ Prolapse
- Abnormal Uterine Bleeding
- Stress Urinary Incontinence

There are minimally invasive solutions available that can get women back to work and their day to day lives quickly and with lower overall healthcare costs⁶
